We follow the strict standards set out by the Payment Card Industry (PCI) Security Standard to store and protect the personal data we collect, both during transmission and once we receive it. We also adhere to ISO 27001 in the adoption of a business wide Information Security Management System (ISMS) to ensure information security is at the forefront of all aspects of business operations. However, as no method of transmission over the Internet, or method of electronic storage, is 100% secure, we cannot guarantee its absolute security. 1.5 Tracking technologies

We may use cookies to remember users' settings and for authentication. Users can control the use of cookies at the individual browser level. If you reject cookies, you may still use our website, but your ability to use some features or areas of our website may be limited.

We, and/or our partners, affiliates, or analytics or service providers, may use tracking technologies such as cookies, beacons, tags, and scripts to analyse trends, administer the website, track users' movements around the website, and to gather demographic information about our user base as a whole. We may receive reports based on the use of these technologies from these companies on an individual or aggregated basis.

As is true of most web sites, we gather certain information automatically and store it in log files. This information may include internet protocol (IP) addresses, browser type, internet service provider (ISP), referring/exit pages, operating system, date/time stamp, and clickstream data.

We do link this automatically-collected data to personal information. IP addresses are tied to personal information for the purposes of logging site actions (updating information, buying products, etc.) so that in the event of a bug or a dispute, we can review the actions taken that led to the outcome and attempt to reproduce the issues.

Some browsers allow you to automatically notify websites you visit not to track you using a "Do Not Track" signal.

There is no consensus among industry participants as to what "Do Not Track" means in this context. Like many websites and online services, we currently do not alter our practices when we receive a "Do Not Track" signal from a visitor's browser. To find out more about "Do Not Track," you may wish to visit www.allaboutdnt.com.

1.6 Behavioural targeting

We may partner with a third-party ad network to either display advertising on our website or to manage our advertising on other sites. 1.8 Social media widgets

Our website may include Social Media Features, such as the Facebook 'Like' button and Widgets, the 'Share this' button or interactive mini-programs that run on our website. These Features may collect your IP address, which page you are visiting on our website, and may set a cookie to enable the Feature to function properly. Social Media Features and Widgets are either hosted by a third party or hosted directly on our website. Your interactions with these Features are governed by the privacy policy of the company providing it.
